- JavaScript

EMPLOYMENT HISTORY

Junior Node.js Developer, Pragmatic Coders

December 2021 - Present

Currently, I am a Node.js Developer with substantial expertise in building dynamic web applications. My proficiency lies in Java, Hibernate, NodeJS, MySQL, MongoDB, Jest,

GraphQL, MongooseJS, ExpressJS, HTML, CSS, SASS, and JavaScript. I ensure top-notch code quality by rigorously testing it.

EDUCATION

Java Developer, Coders Lab

2020

The Java Development course significantly enhanced my programming skills. With a strong foundation in Engineering principles and prior experience in JavaScript, I successfully completed projects, gaining valuable software development knowledge.

IT technician, Technical Secondary School No. 5 in Krosno

September 2013 - May 2017

The IT Technician course boosted my technical skills. With a solid grasp of IT principles and troubleshooting experience, I completed hands-on projects, gaining valuable knowledge in IT support and maintenance.
